■ Why use an Adventure Plan

Yosemite Search and Rescue is one of the busiest wilderness SAR services in the country and averages in excess of two hundred rescue missions every year. While many SARS can be avoided with proper planning and knowledgeable decision making, accidents can still happen. An adventure plan is a backup plan. It enables a trusted contact to initiate a SAR on your behalf should you run into trouble. Further it gives your trusted contact valuable information that can increase the odds of a better outcome for a SAR mission

■ Instructions

- 1: Fill out this form for each person going on the trip.
- 2: Take recommended photos (pg. 2)
- 3: Give a physical or digital copy of this form and photos to your trusted contact. There should be one trusted contact that has a form for each person in the party. If you choose to have multiple trusted contacts give a copy of each form to all trusted contacts and ensure trusted contacts know how they can reach each other.

■ Double Check- Do you have the 10 Essentials?

■ Terms and Conditions

The Adventure Plan form is provided free of charge but without warrant or guarantee. 'LEADER' refers to the person using the form to complete their Outdoors Intentions. 'TRUSTED CONTACT' refers to the person that the 'LEADER' gives their Adventure Plan form to, whether it be via electronic or hard copy means. The process relies on the LEADER providing correct and comprehensive information. This form is provided as a resource only and is not a guarantee of safety. No responsibility is accepted on the part of FOYOSAR. The process relies on the TRUSTED CONTACT receiving the information from the LEADER and following the designated process as set out on the form. It is recommended that the LEADER checks that their TRUSTED CONTACT has received the Adventure Plan (by whatever means chosen) prior to leaving on a trip. It is the responsibility of the LEADER to ensure that the TRUSTED CONTACT they select is willing and able to respond and follow the process contained within the information they receive. No responsibility is accepted for the TRUSTED CONTACT not receiving the information or not following the correct process. The timeliness and accuracy of a search and rescue response depends somewhat on the quality, quantity and accuracy of the information that is provided by the LEADER to the TRUSTED CONTACT and that the TRUSTED CONTACT follows the process correctly. No guarantee is given regarding search and rescue response. Internet and telecommunications providers do not guarantee uptime of their systems or delivery of electronic messages. Postal services do not guarantee timeframes of delivery of physical letters, parcels or packages. By using the Adventure Plan form you accept that you have read, understood and agree to the terms and conditions above, and that you understand FOYOSAR is making no claims as to the guarantee of safety or rescue. Outdoor recreation has inherent risks, and it is your responsibility to make a plan and choices that will keep you safe.

Group Members

Total in group:

It is highly recommended that each group member fill out a copy of this form and give all forms to your trusted contact(s). If you have more than one trusted contact, each contact should get a copy of all forms.

This has several benefits:

- *The trusted contact can call other group members who may have different cell service coverage.
- *The trusted contact can get all info to SAR in a timely manner, if needed.
- *The process of filling out the forms will help familiarize all members with the plans should something go wrong.
- *If one person is in need of help the information for that individual will be on hand.
- *More information = more accurate tracking abilities for SAR.
